
**Declaration of no objection
for sent products**

Please understand that deliveries without a Declaration of no objection cannot be processed.

The operator's Declaration of no objection serves for the safety and protection of our employees, the transport company and the environment from harmful effects when handling hazardous substances, as well as protecting you from recourse claims.

When returning products, please send them back to us in a cleaned condition. Please confirm this with the completely filled out Certificate of no objection.

We do not accept returns of products that have been exposed to radioactive or microbiological contamination that have not been professionally decontaminated.

We reserve the right not to accept contaminated products and to return them to you at your expense!

The safety data sheet for the materials used, in accordance with Regulation (EC) No. 1907/2006, and the Certificate of Harmlessness must be sent in advance to sales@nexopart.com

Formular NXP-F-PR-01 Rev00 09.02.2026

For test sieve machines:

1. Please fill out the declaration of no objection in detail.

2. If possible, pack the test sieve machine in its original box. Place a copy of the filled declaration of no objection in its original box. For the air jet sieve machine: Depending on its size, place it in an additional wooden crate or shipping box.

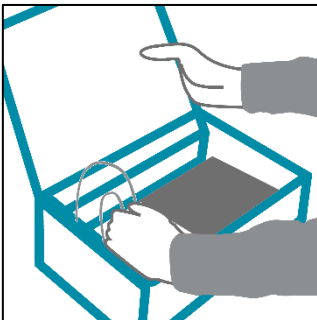

3. Please place the original declaration of no objection and shipping documents in a shipping envelope and attach it to the front of the shipping box. Also attach the "NO DANGER" sticker in a visible position on the wooden box.

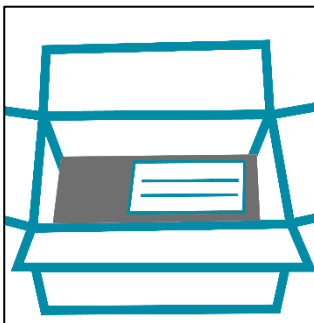

For small products:

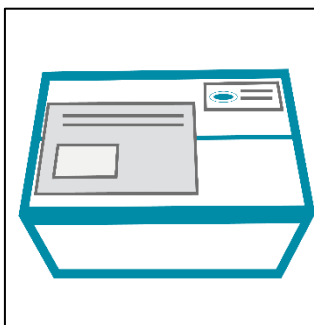

1. Please fill out the declaration of no objection in detail.

2. If possible, pack the product in the original box.

3. Place the product in its original box together with a copy of the filled declaration of no objection in a shipping box.

4. Please place the original declaration of no objection and the shipping documents in a shipping envelope and attach it to the front of the shipping box. Also attach the "NO DANGER" sticker to the shipping box in a visible location.
